The application has been amended as follows:

Please remove the two paragraphs of Abstract, filed on 6/16/2005; and amend abstract as follows:

-- A process for producing a composite of aluminum material and synthetic resin molding with high efficiency; and a stable fast composite exhibiting high peeling resistance and large mechanical strength. The process is characterized in that aluminum material (1) is anodized in electrolytic bath of phosphoric acid or sodium hydroxide to thereby form anodic oxidation coating (2) provided with innumerable pores (3) having a diameter of 25 nm or more made open in the surface thereof is formed thereon, and a synthetic resin mold (6) is coupled with the anodic oxidation coating (2) in such a condition that the portion (6a) of the synthetic resin molding (6) is intruded or anchored in the innumerable pores (3) of the anodic oxidation coating (2). By this process, composite (P) with the above properties can be easily obtained.- -

Allowable Subject Matter

2. Claims **1, 9, 13, 19 and 21-36** are allowed.
3. The following is an examiner's statement of reasons for allowance: None of the above references, taken alone or in combination, inter alia teaches or fairly suggests the limitations of **a composite of a worked aluminum material and a synthetic resin molding, wherein resin selected from the group consisting of polybutylene terephthalate (PBT), polyethylene (PE), polypropylene (PP), ABS and PPS, and polyacetal (POM)**, so constructed that the synthetic resin molding is coupled with an anodic oxidation coating....and bonded together over a part or the whole surfaces thereof

as to **have a vertical tensile strength from between 20 Kg/cm² to 45 Kg/cm²**, as set forth in the claims of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
